

The background of the entire slide is a photograph of a coastal town, likely in Rhode Island, taken at dusk or dawn. The town is built on a hillside overlooking the ocean, with numerous houses and buildings visible. A network of glowing white lines and dots is overlaid on the top half of the image, suggesting a digital or interconnected theme.

Fax: 401-793-4511

NOTE: CoC documents are usually *available at discharge* and include encounter-specific details such as meds and discharge disposition.

Clinical Data > Health Records > Clinical Notes (Discharge Summaries)

- Discharge Summaries may include a reason for hospitalization, discharge condition, and patient & family instructions. Frequently will contain Hospital Course/Progress notes.
- Organizations may send documents with different names. In this example, the Clinical Notes tab shows a description of "ED Physician Notes"

Episodic Summary of Care Document

For those practices who are data-sharing partners with CurrentCare, the CCD is a summary of care from the patient's visit.

- 1 The table links to information such as medications and procedures that were captured during the patient's visit.
- 2 The document can be downloaded as a PDF by clicking the arrow at the top right of the screen
